

# DELTA RL3-TS1-1300-6kg

Article number: A\_00051-TS1-FO

Lubricant variant: Food-grade lubricants (FO)

**Description:**

This type of robot is based on the principle of parallel kinematics. All drives are mounted in a fixed position on the robot head. Motor cables are not moved. The robot has three (3) translational degrees of freedom.

**Scope of delivery:**

Robot mechanics incl. gearbox, Servo motor adapter, Threaded protection caps, Transport and packing instructions

**Connecting dimensions:**
