

Article number: A_00879-MV

Mirror-inverted variant: Yes

Lubricant variant: Synthetic lubricants

Description:

This type of robot is based on the principle of parallel kinematics. All drives are mounted in a fixed position on the robot head. Motor cables are not moved. The robot has three (3) translational and one (1) rotational degree(s) of freedom. The article number extension '**MV**' (**Mirrored Version**) identifies the mirrored version of the mechanic.

Scope of delivery:

Robot mechanics incl. gearbox, Servo motor adapter, Threaded protection caps, Transport and packing instructions
